## Product Information

### About Fertile Turf™

**Fertile Turf™** is a 100% soluble complete fertiliser. It contains macro elements and trace elements, in a chelated form, making all the nutrients readily available for turf all year round. Phosphorous is added to aid in root development and overall growth.

**Fertile Turf™** is especially formulated for dual purposes: Suitable to irrigate as well as foliar apply.

**Fertile Turf™** has NO oxides or chlorides and has a very low salt index.

**Fertile Turf™** may be applied with most herbicides, fungicides and pesticides.

### Net Contents

□ 20kg

## Directions & General Recommendations

### Application Rates

APPLY MONTHLY

### Foliar Application - Greens & tees:

Apply 20kg / Ha

### Fairways & sports fields:

Apply 20 – 30kg / Ha

Apply with **Fulmax®** to further increase nutrient uptake and response.

### Product Handling

When dissolving **Fertile Turf™**, ensure water is buffered to a pH of 6 - 6.5 using **Buffermate™**. This will ensure high solubility.

### Compatibility

Always perform a compatibility test (jar test) before mixing anything with **Fertile Turf™**.

KEEP OUT OF REACH OF CHILDREN
